- Writing, analysis, and summarising

WORK EXPERIENCE

AKYL, 09/2023 à 02/2026
GRC Specialist / Risk management

- Led the structuring of information security governance for multiple clients : policies, dashboards, KPIs, and internal frameworks
- Designed and deployed business continuity and disaster recovery strategies, including BIA interviews, service mapping, and IT recovery plans
- Acted as outsourced CISO for several organisations: security oversight,
- compliance tracking, executive reporting, and long-term roadmap management
- Delivered cross-functional security projects (MFA rollout, data classification, monitoring frameworks) in coordination with technical and business teams
- Designed and facilitated large-scale cyber crisis exercises (executive-level scenarios, media simulation, real-time decision pressure), including post-mortem analysis
- Delivered awareness programmes and training sessions to both technical and non-technical audiences
- Conducted cyber threat monitoring and produced actionable intelligence reports (surface, deep, and dark web investigations)
- Intelligence: surface/deep/dark web research, analysis of clues, reports and operational recommendations

CRYSALIDE, 02/2023 - 06/2023
Crisis Management Specialist

- Contributed to the design of crisis management training programmes and client proposals
- Developed and facilitated cyber crisis simulation exercises
- Produced strategic deliverables and supported operational coordination (on-call structuring, post-incident reviews)

CRYSALIDE, 03/2021 – 07/2022
Crisis Management

- Supported client account management and operational follow-up
- Contributed to public and private tenders
- Facilitated crisis simulations and debriefings
- Designed training materials and awareness content
